The Club Coach course is ideally suited to coaches regularly working at club level, coaching teams or individuals. Amongst a range of other knowledge and skill components, this course covers a broad range of general coaching theories and specific bowls content, including:

*	Conduct a coaching session to teach skills and tactics
*	Identify appropriate delivery
*	Identify appropriate drills for shot development
*	Apply technique analysis to provide appropriate feedback
*	Identify the correlation between line and weight and environment
*	Implement inclusive activities for the coaching of bowls
*	Identify physical growth and development considerations
*	Identify the specific responsibilities of lead, second, third and skip
*	Assist athletes with basic nutritional strategies for sports performance
*	Demonstrate effective communication strategies

A note that it is a requirement of becoming a Club Coach that you obtain, and keep current, a **Working with Children Check (WWCC)**. This can be obtained from most Australia Post Outlets for a cost of \$11 as a volunteer. Processing of the cards takes approximately 3 to 4 weeks, and we will only finalize processing of your Club Coach Certificate with Bowls Australia when we have sighted your card, so we **highly recommend** you apply prior to taking the Club Coach Course. You will be applying for Category 12: A Club/Association/Movement. When you pay for the WWCC keep the receipt as that acts as an interim approval, and when your card arrives please arrange a copy for the office.
