

FITA ARROWHEADS

Listed below are the scores required for the various FITA Arrowheads shot over the minimum 24 Target Marked or Unmarked rounds (scored out of 432) in registered FITA Arrowhead field events.

RECURVE (Sighted) (Red Pegs/*Cadets Blue)

ARROWHEAD	MEN	WOMEN
* Green	219	196
* Brown	244	227
Grey	265	249
Black	291	279
White	313	302
Silver	338	323
Gold	350	339

COMPOUND (Red Pegs/*Cadets Blue)

ARROWHEAD	MEN	WOMEN
* Green	292	275
* Brown	313	301
Grey	331	318
Black	351	338
White	371	357
Silver	389	377
Gold	399	388

BAREBOW RECURVE (Blue Pegs/*Cadets Yellow)

ARROWHEAD	MEN	WOMEN
* Green	191	182
* Brown	230	198
Grey	250	226
Black	273	250
White	294	275
Silver	316	299
Gold	335	312

* ARROWHEADS FOR CADET ARCHERS:

Using these tables, Cadet archers shooting their specific round in the Green Arrowhead score range may claim a Green Arrowhead. A score of Brown Arrowhead level or higher means that the archer is eligible to claim a Brown Arrowhead. This also applies to our Intermediate sighted archers shooting from Blue pegs and Intermediate and Cub barebow recurvers shooting from Yellow pegs. No Arrowheads higher than Brown may be claimed unless the athlete is shooting the Open rounds.

There are 2 ways of acquiring FITA Arrowheads:

1. A FITA Arrowhead may be claimed if the archer has shot the required score in a World Archery (WA) Registered event. The claiming process varies depending on the RGB and the event so please check with the event organiser or RGB Recorder. Arrowheads cost \$7.50 each except for the high level Silver and Gold ones which are free.
2. Archers may at any time choose to purchase lower level Arrowheads if they hold an Arrowhead higher than the ones they want to purchase. Requests are to be made through your RGB Recorder and there are no time limits. The AA Recorder will check the AA Awards database to ensure the higher one is held and send the Arrowheads requested and an invoice for \$7.50 per Arrowhead to the RGB Recorder.

Only one Arrowhead of each colour may be awarded to an archer even if shot with two bow types or over several age divisions as there is no difference in the awards unlike the situation with the differing recurve and compound FITA Stars.

Claims for Silver and Gold Arrowheads are individually processed by WA from claims made to WA by the AA Recorder on behalf of the archer. The AA Recorder will hold stocks of the lower level Arrowheads.

FITA STARS

FITA Stars are available for archers using recurve or compound bows in registered FITA Star events and they must be:

Men shooting a FITA 90/1440 Round (90m, 70m, 50m, 30m)
Women shooting a FITA 70/1440 Round (70m, 60m, 50m, 30m)

FITA Stars are for scores of 1000 (white), 1100 (black), 1200 (blue), 1300 (red), 1350 (gold) and 1400 (purple). The Gold FITA Star on a coloured circular background is the Compound Star, whereas for recurve the 1000 one is just the gold star, and the higher ones are on a shield of the relevant colour.

There are 2 ways of acquiring FITA Stars:

1. A FITA Star may be claimed if the archer has shot the required score in a World Archery (WA) Registered event. The claiming process varies depending on the RGB and the event so please check with the event organiser or RGB Recorder. Stars cost \$7.75 each except for the high level 1350 and 1400 ones which are free.
2. Archers may at any time choose to purchase lower level FITA Stars if they hold a FITA Star higher than the ones they want to purchase. Requests are to be made through your RGB Recorder and there are no time limits. The AA Recorder will check the AA Awards database to ensure the higher one is held and send the Stars requested and an invoice for \$7.75 per Star to the RGB Recorder.

An archer may claim only one of each FITA Star, but as the recurve and compound stars are considered different awards archers may claim both the recurve and compound FITA Stars if they shoot both bow types.

Claims for 1350 and 1400 FITA Stars are individually processed by WA from claims made to WA by the AA Recorder on behalf of the archer, whereas the AA Recorder will hold stocks of the lower level FITA Stars.

SILVER FITA STARS

Silver FITA Stars follow the same rules but are only for recurve and compound archers competing in the Cadet or Master categories with:

Cadet Boys and Master Men shooting a FITA 70/1440 Round (70m, 60m, 50m, 30m)
Cadet Girls, Master and Veteran Women shooting a FITA 60/1440 Round (60m, 50m, 40m, 30m)

The Silver FITA Stars are identical to the FITA Stars except that any gold colouring on the FITA Stars is replaced by silver. Archers already holding an award of a higher level as described above may purchase lower level Stars.

Archers who are able to claim Silver FITA Stars for the round they shoot may only claim 800 and 900 Australian Stars if they shoot the relevant lower scores, though may purchase them if holding higher Silver FITA Stars.

FITA TARGET AWARDS

WHITE

BLACK

BLUE

RED

GOLD

PURPLE

FITA Target Awards are available for archers using recurve or compound bows in registered World Archery (WA) events, and shooting the following scores for the appropriate round:

Event	White	Black	Blue	Red	Gold	Purple
FITA 70/720 (122cm face)	500	550	600	650	675	700
FITA 50/720 (Compound)	500	550	600	650	675	700
Half FITA**	500	550	600	650	675	700
FITA 60/900 Round	750	800	830	860	875	890
FITA 25m Indoor	500	525	550	575	585	595
FITA 18m Indoor	500	525	550	575	585	595

** Half FITA is 18 arrows at each distance over the round required for a FITA Star by that archer, a FITA 90m Round for men and a FITA 70m Round for women.

There are 2 ways of acquiring FITA Target Awards:

1. A FITA Target Award may be claimed if the archer has shot the required score in a WA Registered event. The claiming process varies depending on the RGB and the event so please check with the event organiser or RGB Recorder. Target Awards cost \$4.50 each except for the high level Gold and Purple ones which are free.
2. Archers may at any time choose to purchase lower level Target Awards if they hold a Target Award higher than the ones they want to purchase. Requests are to be made through your RGB Recorder and there are no time limits. The AA Recorder will check the AA Awards database to ensure the higher one is held and send the Target Awards requested and an invoice for \$4.50 per Target Award to the RGB Recorder.

Claims for Gold and Purple Target Awards are individually processed by WA from claims made to WA by the AA Recorder on behalf of the archer, whereas the AA Recorder will hold stocks of the lower level Target Awards.

SILVER FITA TARGET AWARDS

WHITE

BLACK

BLUE

RED

GOLD

PURPLE

Silver FITA Target Awards are available only for archers competing in the Cadet or Master categories using recurve or compound bows in registered FITA events, and shooting the following scores for the appropriate round:

Event	White	Black	Blue	Red	Gold	Purple
FITA 60/720 Round	500	550	600	650	675	700
Half FITA**	500	550	600	650	675	700

** Half FITA is 18 arrows at each distance over the round required for a Silver FITA Star by that archer; a FITA 70/1440 Round for men and a FITA 60/1440 Round for women.

The Silver FITA Target Awards are the same as the FITA Target Awards except that any gold background colour on the FITA Target Awards is replaced by silver. Only one Award of any colour will be issued regardless of the round for which it is obtained. Cadet and Master archers may claim the usual FITA Target Awards for the other available rounds.

AA AUSTRALIAN STARS

Australian Stars are available for all archers shooting in a registered FITA Star event, but over a round or using equipment that makes them ineligible to claim FITA Stars or Silver FITA Stars. Those archers shooting rounds for which either FITA Star is claimable may claim an 800 or 900 Australian Star if their score is between 800 and 999.

Please note that the 'designated round' mentioned below is the one listed in Chapter 3 of the AA Rule Book for that age group and bow type to shoot at the AA National Championships. The following may therefore claim Australian Stars:

1. Compound and Recurve

- Open, Junior, Cadet and Master archers shooting their designated round and scoring between 800 and 999
- Veteran Women shooting a FITA 60/1440 Round and scoring between 800 and 999
- Veteran Men shooting a FITA 60/1440 Round
- Intermediate archers shooting an Intermediate
- Cub archers shooting a Horsham

2. All Barebow Recurve archers shooting their designated rounds

3. All Barebow Compound archers shooting their designated rounds

4. All Longbow archers shooting their designated rounds

5. All Crossbow archers shooting an Australian 960 round

* * * * *

LEVEL OF CLAIMABLE AUSTRALIAN STARS

Compound and Recurve may claim from 800 upwards in increments of 100 but including 1350

Barebow may claim from 800 upwards in increments of 100

Longbow may claim from 600 upwards in increments of 100

Crossbow Stars are green and are available for 750, 800, 830, 860, 890, 920

There are 2 ways of acquiring Australian Stars:

1. An Australian Star may be claimed if the archer has shot the required score in a WA Registered event. The claiming process varies depending on the RGB and the event so please check with the event organiser or RGB Recorder. Stars cost \$7.75 each except for the high level 1350 and 1400 ones which are free.
2. Archers may at any time choose to purchase lower level Stars if they hold a Star higher than the ones they want to purchase. Requests are to be made through your RGB Recorder and there are no time limits. The AA Recorder will check the AA Awards database to ensure the higher one is held and send the Stars requested and an invoice for \$7.75 per Star to the RGB Recorder.

Archers achieving FITA Stars may purchase lower level Australian Stars relevant to their bow type.

All Australian Stars are held by the AA Recorder, and are awarded on verification of the criteria being met.

AA CLASSIFICATION MEDALS

Third

Second

First

MB

GMB

PLEASE NOTE: Classification award levels and requirements are currently under review so there may be changes to this document soon.

The Classification Medals are diamond in shape:

Target/Indoor 2nd and 3rd class:	Bronze with white insert for Target and grey insert for Indoor
Target/Indoor 1st class:	Black with white insert for Target and grey insert for Indoor
Target/Indoor Master Bowman:	Blue with white insert for Target and grey insert for Indoor
Target/Indoor Grand Master Bowman:	Gold with white insert for Target and grey insert for Indoor
Field levels are all the same:	Black and white target on silver background with white insert
Clout levels are all the same:	Yellow clout on silver background with white insert

Archers and arbalists are able to achieve the following classification levels:

- Third Class
- Second Class
- First Class
- Master Bowman (MB)
- Grand Master Bowman (GMB)

for each of Target, Indoor, Field, Clout and Flight (AA Rules 4.2.1). The details are set out in Chapter 4 of the AA Rule Book, and need to be read in full there as it is a complex procedure, but a few points to note are listed below.

Frequency: Third, second and first class awards are one-off achievements, but Master and Grand Master Bowman are awarded annually. Medals for the first three levels simply state the level achieved, while for Master and Grand Master Bowman levels the year is indicated on the medal insert.

Claiming: Third, second and first class awards are held by club recorders and are issued to the archers who have met the criteria stipulated by AA. The club recorder must make MB and GMB claims, and forward them with scorecards to their RGB Recorders who verify and sign that the claims meet the requirements. The completed claim form only will then be sent to the AA Recorder who will check the claims, issue the awards, and note them on the AA Awards database.

Event round: For all MB and GMB awards at least one of the three rounds submitted must have been shot at an 'event'. Ranking rounds sanctioned by RGB's are considered an 'event' if members from more than one club are competing, as of course are other open tournaments. (AA Rules 7.4, Outdoor Target 4.2.3.2, Indoor 4.2.4.2, Field 4.2.5.2, Clout 4.2.6.2). The 'event' round shall be at least the same as required to be shot at the National Championships by that archer's/arbalist's age/bow division. The 3 rounds shall be shot between January 1 and December 31 of the same year.

Target MB and GMB claims: Two of the rounds shot can be 100+ arrow (AA Rules 4.2.3), 90+ bolts (AA Rule 15.6.3.2) rounds which may be shot at a tournament or club shoot, and shall include at least 30 arrows at the distances shown in tables 4.2.3.3. The 'event' round shall still be at least the National Championship target round shot by that archer.

OTHER AA MEDALS

All Gold and Perfect Ten medals

 <p>Perfect Ten All Gold</p>	 <p>Perfect Ten All Gold</p>	 <p>Perfect Ten All Gold</p>
GOLD – National and World Ranking Events	SILVER – State Events	BRONZE – Club Events

Medals for achieving either six arrows in the gold (9s and 10s) or all six arrows in the 10 on one end are available for regular shooting distances. The medals are available in 3 colours and are able to be purchased for the following events with an insert showing the distance over which the arrows were shot. The archer usually indicates on their scorecard if they wish to claim one or more of these medals.

Bronze Medals for club events

Stocks of these medals can be held by individual clubs and awarded at that club recorder's discretion on evidence of a correctly completed scorecard.

Silver Medals for State Championship events

RGB Recorders can hold stocks of these medals and the medals are only available when the scores are shot at an event at which a state title is decided. The RGB Recorder will require the evidence of a correctly completed scorecard before awarding the medal claimed.

Gold Medals for National Championship and major events

Stocks of these medals are held by the AA Recorder and may also be held by a Nationals Organising Committee for the duration of their event. These medals are only available for purchase by archers meeting the requirements while competing at an Australian National Championship, FITA World Championship or FITA World Ranking Event. They may be claimed from the AA Recorder once the Championship event is over via their RGB Recorder, or on submission of a scorecard or suitable witness from a World Ranking Event.

Please note that when 3 arrow ends are shot the 'end' required for one of these awards needs to be equivalent to the 6 arrows shot in 6 arrow ends. This means arrows 1 - 6, 7 - 12, 13 - 18 etc of a range, not arrows 4 - 9 or 16 - 21 etc.

Inserts are available for the following distances in meters:

- 122cm target face:** 10, 15, 20, 25, 30, 35, 40, 45, 50, 55, 60, 70, 90,
- 80cm target face:** 20, 25, 30, 35, 40, 50, 60 (indicated by an 'M' under the number)
- Indoor targets:** 18, 25 (number on a grey background instead of white)
- Clout:** 100, 125, 145, 165, 180

Field Pins

 <p>Field All Gold Pin</p>	 <p>Field Perfect Pin</p>	 <p>Field 20 Pin</p>
--	---	--

Stocks of these pins may be held by RGB Recorders and individual clubs, and awarded by the Club Recorder once evidence of the required score is provided. The pins are the same whether claimed for a club shoot or a tournament and are available for purchase by the archer for \$5.00 each.

Field All Gold Pins: For a FITA Field Round when the 3 arrows on the one target are all in the gold scoring 5s or 6s.

Field Perfect Pin: For a FITA Field Round when the 3 arrows on the one target are all in the 6 ring, scoring 18.

Field 20 Pins: For other rounds where 4 arrows are shot per target and the maximum possible score of 20 on one target is achieved.
