

Mount Isa Water-Ski club

"The Isa Ski & Power Boat Club Inc."

The "Isa Ski & Power Boat Club Inc" is the water-ski club in Mount Isa. Mount Isa is in northwest Queensland, approx 120kms east of the Northern Territory Boarder, and approx 900 kms west of Townsville. The Club bases it activities at nearby Lake Moondarra, approx. 15 kms north of Mount Isa.

More information about Mount Isa and Lake Moondarra can be found at these sites:

Mount Isa Chamber of Commerce website:

<http://www.mountisa.biz/history/moondarra.php>

(Note the club is listed at: <http://www.mountisa.biz/community/sports.php>).

Mount Isa City Council website:

<http://www.mountisa.qld.gov.au>

The club has several facilities including a tin roof/cement floor open clubhouse plenty of lawn area, shady trees with close by parking and public toilets

Photo shows club house/looking westward (boat ramp spreads between these 2 photos)

The clubhouse faces north and in the direct view of the lake and the slalom course is visible.

Also located on the outside edge of the clubhouse are 2 open wood fire BBQ's with near by sink.

Most weekends' members gather at sunset to socialise & have a BBQ together, particularly on school holidays.

Several club members hold Level 1 Coaching certificates and have the required skills to teach many different Skiing activities, Wakeboarding, Slalom and Bare footing to name a few.

The club has a social site on the Facebook website called

"Mount Isa Waterski Club Members – past & present" where we keep in contact with each other and share photographs and humour.

Come and try days are a successful fun activity where members commit the day to sharing their equipment and techniques. Although water-skiing is the primary reason for our club – we still welcome people who have never water-skied – the club area is a lovely place to have a picnic and socialise with a friendly group of people (anyone could be a potential member). We enjoy an amazing sunset most nights with the beautiful outback flora and fauna around us on vibrant hilly red soil, rain hail or shine ☺
