About the Results:

Medals in Kata demonstrations, where there are only one or two pairs competing, are awarded based on their score and relative placement:

- *Gold is awarded to scores between 90-100% range.*
- *Silver to the 80-89% range, and*
- *Bronze to 70-79% range.*

If there are two scores in one medal range, then the higher score is awarded that medal and the lower score is awarded the next lower medal.

Kata demonstrations where there are three or more competitors, then medals are awarded to the top three scores.
