

2016 Issue No. 11 Nov

## CHRISTMAS BREAK-UP SHOOT AND LUNCH

### SATURDAY 17 DECEMBER 11AM

We will have the same wonderful meats as we had last year, and there will be an icecream cart. Bring a salad to share.

Shooting and lunch will be followed by presentation of awards, and raffle draws for a basket of goodies and a Christmas stocking. Please put something in the basket and/or the stocking when they appear in the Clubroom.

So come along and enjoy a relaxing day before the busy Christmas week kicks off.

Please enter your name on the Club's notice board if you plan to attend.

## NEWS FROM THE MEETING ON FRIDAY 18 NOVEMBER

Now that summer has finally arrived, the watering system has been checked and found to require some repairs.

Please pile dead branches behind the Club building, out of the way. This helps our volunteer groundsman, Jonathon Cox, who otherwise has to do it himself.

Also, if shredded plastic material falls out of the butt you are using, or if you pull out loose material, please PICK IT UP AND DISPOSE OF IT IN A BIN. DON'T LEAVE IT ON THE GROUND FOR SOMEONE ELSE TO PICK UP.

Quite a number of people have paid incorrect amounts for their annual club fees. Check that you are paying the right amounts as listed on the notice board opposite the kitchen unit.

## Dates to Remember

3 Dec	Field - QRE/Ranking Shoot Starts: 1.30 pm Shepherds Hill Recreation Park
17 Dec	End of year break up shoot and awards presentation

## AAC Library Magazine/Books/DVD Reviews: November 2016

### “New” Magazine Reviews – Bow International:

Review of newest Bow International (Issue #111): – all “shooting form” articles have been reviewed and “scanned” for inclusion in AAC Library

### Issue #111 (November 2016): Key “Shooting Form” + Equipment Articles

- “Get Your References (Anchor Point) Right” – Duncan Busby
  - Anchor point consistency is essential for shooting consistency
  - Anchor should be easily identifiable, comfortable & repeatable
    - ◆ 1<sup>st</sup> reference – where release hand fits on you face/jaw line
  - For compounders, length of D-loop and release aid also affects anchor point on the face....in addition to draw length (DL also for recurve)
  - An addition reference aid – might be a “kissers” on the string at lip or corner of the mouth
  - String to nose is also a common anchor reference point – for both recurve and compound shooters
  - Compounders – also reference the height of their string “peep” sight
