2017 Personal Bests

How the PB's are calculated in 2017

For Division 1, we are comparing your KM rate from 2016 at the same venue. We only selected certain races so even though you may have had a PB at a venue not on the list, it was not counted towards your PB total for the year. (see your calendar for details of which events were included)

For Division 2 and 3 it was the same as last year. (comparing your KM rate for all previous races of the year)
