NOTES: General Meetings are held on the red dates and start at 10am, followed by the scheduled shoot. Members are expected to attend. On 16 Jan 2021 there will be a Club-supplied BBQ after the shoot to welcome everybody back for the New Year.

## Qualifying

The qualifying scores (or higher) must be shot to qualify at each distance on a large 122cm target face.

**20m - score - 650**

**40m - score - 625**

**60m - score - 600**

**90m - score - 500**

**30m - score - 650**

**50m - score - 575**

**70m - score - 600**

1. You need to qualify at each distance before advancing. Qualify at 20m before moving to 30m.
2. Please put your full name, round shot, date, bow type & division if club comp & sign your score sheet.
3. No person may shoot the field course until they are qualified at 30m AND have done a Field Induction.
4. Archers need to achieve 3 ratings of 50 (recurve) or 60 (compound) or better before they can compete in Division 1.
5. There are bi-monthly medals for DIV 1 & DIV 2 (handicap basis) & these are presented at the general meetings.

## Safety Reminders

1. Targets 11 & 12 are limited to 30m maximum and Targets 9 & 10 are limited to maximum of 50m for practice.
2. Target 12 limited to 10m if the archer has not gained the 20m qualification.
3. Short distances are to be shot on the right-hand side of the target range, increasing to longer distances on left-hand side of range.  
Don't hesitate to ask another archer to move to ensure safety, or to join them if they are shooting at a distance you wish to shoot.
4. At least one butt should be shut between two groups of archers if the distances being shot are greater than 10m. Archers on adjacent butts must approach their butts together to collect their arrows.
5. The field course is to be shot in one direction only (targets in ascending numerical order). Archers may only enter and exit the field course via an approved entry/exit and must keep to the marked tracks and not cross danger tape. Always exit with care.
6. Archers are advised to take suitable precautions when entering the field course. There is a high chance you will come into contact with ticks, leeches and even the occasional snake.

## Club Shoots - Round Descriptions

**Notes** Target faces - 'big face' is 122cm and 'small face' is 80cm. | Excludes Field, Clout and Wand
