## Would you like to share some of the joy that many others are already experiencing in their work?

Take the first step and enrol in one of the Australian Swimming Coaches and Teachers Association's (ASCTA) nationally recognised and internationally acclaimed Swim Australia™ Teacher accredited training courses.

Choose to enrol in any of the three entry level courses to get started on an exciting new career.

A **Swim Australia™ Teacher** has the competence and knowledge to teach swimming and water safety to independent learners in groups of varying sizes. Successful students of this course will gain a Statement of Attainment with the competencies required to deliver GST free, water related personal safety and survival lessons.

The most popular course is the **Swim Australia™ Teacher**. Swim Australia™ Teacher accreditation is also a prerequisite for those wishing to gain specialised accreditations.

A **Swim Australia™ Teacher of Babies and Toddlers (B&T)** has the competence and knowledge to teach water familiarisation and basic swimming and water safety to caregivers and their dependent learners.

A **Swim Australia™ Teacher of Competitive Swimming (CS)** has the competence to deliver basic swimming squad sessions that develop the swimming technique of novice swimmers – this is generally defined as swimmers who are recent “Learn to Swim” graduates and are in the likes of a “mini squad” (usually around 10 years and under) and still acquiring the skills needed to transition into competition.

This course is endorsed by the peak sporting body in Australia for swimming, Swimming Australia, as an entry level course of the swimming coaching accreditation pathway.

All entry level courses feature a best practice blended delivery technique. You will be provided with an online login enabling you to undertake self-paced theory study. The theory features text with colour photos, videos and graphs for each unit of study. Upon completion of each unit, a series of randomised questions will be asked.

If you respond incorrectly, you will receive instant feedback and will be able to study further then re-answer. You will then attend a practical induction for your selected course which focuses on transitioning you from theory to hands on practical. Once the practical induction is complete you will undertake on the job training under the supervision and direction of a lead teacher.

As your confidence and ability grows, you will progressively become more involved in the lesson delivery until a competency assessment determines you are at the required standard to work independently.

How long this can take is determined by your skills, knowledge and abilities (nominal 30 hours).

The **Swim Australia™ Teacher of Adults and Adolescents (AA)** gives you the knowledge to work with teens and adults learning to swim later in life.

The **Swim Australia™ Teacher of Learners with a Disability (LWD)** focuses on the skills you will need to teach swimmers with a range of physical, emotional and intellectual disabilities safely and effectively.

The **Swim Australia™ Teacher of Culturally and Linguistically Diverse (CALD)** gives you the skills to plan and implement learn-to-swim programs which break down barriers to participation and meet the needs of these individuals in the community.

Gaining these additional SAT accreditations is a great way to diversify your knowledge base and better equip you to effectively deliver swimming and water safety education to all members of the community with ease.

It is also one way to renew your SAT accreditations for a further four years via our re-accreditation process. Gaining another SAT accreditation will renew all your SAT accreditations for a further four years.
