The following risk management key points are considered by the AWWF Board to be the minimum required for the safe conduct of an event.

First Aid and off Site Medical facilities. Will include the following.

- * Phone or radio communications for direct contact with emergency services
- * Accredited First Aid Officer or medical assistance on site or within 20 minutes travel.
- * First aid kit and spinal board on site for jump events.
- * A Safety Officer is appointed for the events.

Site checks to ensure a safe and hazard free environment. Will include the following.

- * Removal of rubbish and hazards from waterway
- * Alert officials and skiers of hazards
- * Check boat ramp for hazards
- * Designated safety area
- * Approved personnel in safety/pick up boat
- * Effective communication between all judges, boats, towers and safety officer
- * Clear markings of any hazard.
- * Check docks for any hazards
- * Check towers for hazards
- * Designated pick up/ safety boat on site

Refueling Area. As mandated by State Guidelines. Will include the following.

- * No on water fuelling
- * No smoking or flammable sign in place
- * Approved fire extinguisher on site
- * Restricted area

Jump and or Sliders Will include the following.

- * Correctly secured and signage
- * Good contrast of colors
- * Check surface area for hazards, nails, gaps etc
- * Riders do not OLLY onto sliders

- I hereby acknowledge and certify that compliance with these minimum recommendations will be in place prior to the event .
- I understand a "match day" check list will need to be completed as close to the event as possible to ensure last minute hazards are identified and eliminated. Copy for Safety Officer.
- I am aware of the AWWF Incident reporting form for any incidents during the event.
