3. QUALIFICATION SYSTEM

3.1 A Qualification Standard

Competitors are eligible who are ranked within the top 500 in the respective event of the Olympic FIS Points List published at the end of the qualification period on 20.01.2014. The table under 3.5 defines eligibility in the different competitions:

3.2 B Qualification Standard

NOCs that do not have one competitor who meets the above qualification criteria, may enter one male competitor and one female competitor ('basic quota') in only the Slalom and Giant Slalom events, respectively NOCs that have only one male or one female competitor who meets the above qualification criteria, may enter one competitor of the other gender, on the condition that the male and/or female competitor(s) concerned has maximum 140 FIS points in the respective event on the Olympic FIS Points List published on 20.01.2014.

The Olympic FIS Points List is calculated using the average of five competition results for technical events (giant slalom and slalom) and three events for speed events (downhill, super g and super combined).

3.3 Host Nation

The host nation is expected to enter competitors into all events. If the host nation has no competitor who complies with the qualification conditions laid down in clause 3.1, it will in any case be allocated a B qualification standard quota spot for one male competitor and one female competitor ('basic quota') in the slalom and giant slalom events. Nevertheless the competitors must be eligible according to 3.2. For the speed events (downhill, super g and super combined), the host nation will be allocated a quota spot for one male competitor and one female competitor, whereby the competitors must have less than 80 FIS points on the Olympic FIS Points List in the event concerned (see table under 3.5). All competitors must have been entered as part of the allocated NOC quota.

3.4 Allocation of Quotas

Within the maximum of 22 competitors per NOC and up to a maximum of 320 Alpine Skiing places, quotas will be allocated per nation as follows:

- 3.4.1 **Basic Quota**
The basic quota for one male and one female competitor will be assigned to all NOCs with competitors that qualify according to 3.2.
- 3.4.2 **Competitors in top 500 of the Olympic FIS Points List**
Each NOC with at least one male and/or one female competitor ranked in the top 500 of the Olympic FIS Points List in any event (Downhill, Super-G, Super Combined, Giant Slalom, Slalom) will be allocated one male and/or female quota place (in addition to the basic quota defined in 3.4.1).
- 3.4.3 **Competitors in top 100 of the Olympic FIS Points List**
Each NOC with at least one male and/or one female competitor ranked in the top 100 of the Olympic FIS Points List in any event (Downhill, Super-G, Super Combined, Giant Slalom, Slalom) will be allocated one quota place per male and/or female quota place each (in addition to the qualified competitors per 3.4.2 and the basic quota per 3.4.1).
- 3.4.4 **Competitors in top 30 of the Olympic FIS Points List**
Each NOC with competitor(s) ranked in the top 30 of the Olympic FIS Points List in any event (Downhill, Super-G, Super Combined, Giant Slalom, Slalom) will be allocated additional quota places up to a maximum of four:
- one quota place per male competitor ranked in the top 30 in one event, or
 - two quota places for one male competitor ranked in the top 30 in more than one event or two or more male competitors ranked in the top 30, and
 - one quota place per female competitor ranked in the top 30 in one event, or
 - two quota places for one female competitor ranked in the top 30 in more than one event or two or more female competitors ranked in the top 30.
- 3.4.5 **Allocation of remaining quotas places**
The remaining quotas places up to a maximum total of 320 including the host nation quota will be allocated to NOCs based on the Olympic Quota Allocation List published on 20.01.2014.

The allocation will be made by assigning one quota place per competitor, from the top of the standings downwards until the maximum quota of 320 is reached. During this process once a NOC has achieved the maximum

total number of 22 places its remaining competitors will no longer be counted and the next eligible NOC on the Olympic Quota Allocation List will be allocated a place.

The Olympic Quota Allocation List referred to in article 3.4.4 is a global list of all competitors in the top 500 in their best three events including both male and female competitors.

The table used to allocate points to the top 500 in their best three events from (Downhill, Super-G, Super Combined, Giant Slalom, Slalom) follows a similar graphical line as the system used for World Cup points and can be found at the end of this document.

- 3.4.5 For the allocation of quota places, a competitor will only be counted once either as 3.4.1 Basic Quota, 3.4.2 Top 500 or 3.4.3, Top 100 of the Olympic FIS Points List or 3.4.4 Top 30 of the Olympic FIS Points List using the most favourable option for the NOC to obtain the maximum possible number of quotas places.
